Roll no - 19

Experiment No - 8

```
package Pack1;

public class A_package
{

    public void displayA()
    {
        System.out.println("Class A");
    }

}

package pack2;
import Pack1.*;
class B_package {
    int m = 10;
    public void displayB()
    {
        System.out.println("Class B");
        System.out.println("m = "+m);
    }
}

class TestPackage
{
```

```
public static void main(String[] args)
{
    A_package objA = new A_package();
    B_package objB = new B_package();
    objA.displayA();
    objB.displayB();

}

}
```

OUTPUT –

Class A

Class B

m = 10
